

QUESTIONING CANDIDATES.

Anti-Saloon League Wants Some Information.

Frankfort, Ky.,—President M. B. Adams and Secretary G. W. Young, of the Kentucky Anti-Saloon League, today addressed letters to Auditor S. W. Hager and Attorney General N. B. Hays, candidates for governor, asking them how they stand on the liquor question. The following questions are asked:

"Will you, if elected, enforce the Sunday closing law?"
 "Will you recommend to the next legislature an extension of the county unit law to include cities of all classes?"
 "Have you any understanding with the liquor interests?"

In these days of rush and hurry courtesy is often forgotten. In the mad, pell mell rush of our life little things are done to offend that we rather remain undone. A hastily eaten meal and its resultant headache may cause us social or financial loss. The wise man or woman is the one who relieves little ills, of this sort by a dose of Kodol For Dyspepsia. It digests what you eat and puts your stomach back into shape. Sold by all druggists.

MARRIED IN LOUISVILLE.

Louisville, Sept. 17.—(Special.)—Miss Berola Hull, formerly of Cloverport, now of Owensboro, and Mr. W. C. Payne, of Owensboro, were married Friday, at 2 p. m. at the home of the bride's aunt, Mrs. Geo. L. Frank, 7728 sixth street. Rev. J. W. Browder, pastor Christian church at Jeffersonville, Ind., performed the ceremony. The bride and groom left immediately for Bowling Green, Ky., to surprise the bride's father, Mr. C. M. Stephens, by their marriage.

Miss Hull had been visiting in Louisville two weeks and to make the visit complete the marriage was brought about. They will reside in Owensboro at a boarding house.

Miss Hull is an attractive and beautiful lady of twenty years, and has a large acquaintance in Cloverport. Mr. Payne is the son of Mr. W. C. Payne, of Owensboro, and is cashier of the Adams Express Company in that city. He is twenty-five years of age.

Shake off the grip of your old enemy, Nasal Catarrh, by using Ely's Cream Balm.

Then will all the swelling and soreness be driven out of the tender, inflamed membranes. The fits of sneezing will cease and the discharge as offensive to others as to yourself will be cured when the causes that produce it are removed. Cleanliness, comfort and health renewed by the use of Cream Balm. Sold by all druggists for 50 cents or mailed by Ely Bros., 56 Warren Street New York.

Miss Ditto Wins Blue Ribbon.

Miss Katie Graham Ditto, one of Meade's prettiest and most popular girls, won the blue ribbon at the Elizabethtown fair last week in the girls' riding contest. She drove Baskett & McAniff's celebrated harness horse, Prince of India.—Meade County Messenger.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

HALTING A COLD.

What to Do When You Sneeze or Feel the Warning Chill.

A cold, as nearly every intelligent person knows, is the result of a stoppage somewhere of free circulation of the blood, to which one is first sensitive through a feeling of chill. So slight is the chill oftentimes that not until the preliminary sneeze comes is the victim aware he or she has been in a draft, or that the temperature has changed.

The usual notion is that by going indoors, by changing to heavier clothing or retreating from the moist atmosphere the danger is averted. These precautions are all well enough, but the first and most efficacious measure should be to restore the quick flow of warm blood through every vein, and so by heat instantly counteract the little chill.

When the temperature of the body or extremities is lowered, or a sudden chill or quick change from warm to cold temperature is endured, take three or four deep breaths through the nostrils, expand the lungs to their fullest extent, holding the inhaled air as long as possible, and then slowly exhale it through the mouth. In doing this the inflation of the lungs sets the heart into such quick motion that the blood is driven with unusual force along its channels, and so runs out into the toes and finger tips, and sets up a quick reaction against the chill. In short, the whole effect is to stir the blood and set it in motion as from rapid exercise.—Philadelphia Ledger.

WHERE CATS CAN'T LIVE.

In Very High Altitudes the Felines Go Mad and Die.

Cats go mad and die in high altitudes. Leadville, Colo., is a city over 10,000 feet above sea level, and there is not a single cat in the place that has been there more than three months.

The greater the height above sea level the greater the degree of nervousness both in people and the dumb animals. Even in Denver, which is only half as high as Leadville, cats are high strung and flighty, given to sudden fits of arching their backs and growling at nothing. But they do not go mad in Denver with the same unanimity that they do in Leadville. In the latter place cats seem to be more than usually drowsy when they are first brought there and spend nearly every hour of the twenty-four in sleep. This condition will last a week or two, and is succeeded by a state of ordinary well being, which terminates at a greater or less interval of time by their suddenly having a violent fit, which in a human being would be called hysterics. These fits are repeated with continually increasing frequency until one more violent than any of its predecessors carries the cat off. Even kittens born in high altitudes never seem to get accustomed to them and invariably go the way of their parents.—New York Herald.

A Strange Animal Friendship.
 Sometimes animals which are by nature deadly enemies, such as dogs and cats, strike up a very strong friendship. I have known a cat adopt a puppy and nurse it tenderly, but as a rule they prefer to bite and scratch. A sculptor of animals, a Mr. Harvey, had two pets, a pigeon and a cat, who lived together in great friendship, and had their photograph taken while eating out of the same dish. The pigeon was named Pidge and the cat was called Toddie. They ate, slept and played together, and when Pidge died Toddie was nearly broken hearted, and would never again eat or drink from the dishes from which she and her little playmate used to eat together.—Home Notes.

Well worth Trying.
 W. B. Brown, the popular pension attorney, of Pittsfield, Vt., says: "Next to a pension, the best thing to get is Dr. King's New Life Pills." He writes: "they keep my family in splendid health. Quick cure for Headache, Constipation and Biliousness. Guaranteed at Severs Drug store."

THE SPONGE FISHER.

He Must Have Strength, a Quick Eye and a Deft Hand.

Lying on his chest along the boat's deck, the sponge fisher, with his water glass—a pane set in a box fitted with handles—looks down four feet into the clear depths. With one hand he grasps and sinks a slender pole, sometimes fifty feet in length, fitted at the end with a double hook. The sponge once discovered, the hook is deftly inserted at the rocky base, and by a sudden jerk the sponge is detached.

This cur description of what seems the simple work of sponge fishing gives no idea of the real skill and exertion needed. The eye of the fisher has to be trained by long experience to peer into the sea and tell the commercially valuable sponges from those that are worthless. He must have a deft hand to detach the sponge without a tear.

Above all, while doing this with one hand, he must manipulate with the other the water glass, as the waves sway it sideways and up and down. The strain on eye and body is most intense, to say nothing of the cramped position and exposure to wind and wet, which, first and last, make every sponge fisher a victim of acute rheumatism. Yet, with all his arduous toil, an expert sponge fisher earns not more than £3 a month besides his keep on the boat, which barely deserves the name of existence.—Pearson's Weekly.

HAS STOOD THE TEST 25 YEARS
 The old, original GROVE'S Tasteless Chili Tonic. You know what you are taking. It is iron and quinine in a tasteless form. No cure, no pay. 50c.

MAINE ELECTION.

Gov. Cobb and Congressman Littlefield Have Small Majorities.

Portland, Me., Sept. 11.—The Republicans of Maine elected a governor, all four congressmen, and maintain control of the next legislature, but they sustained heavy losses in pluralities from the head of the ticket down. Both Congressman Littlefield and Governor Cobb attribute the almost unprecedented slump in the Republican plurality to the general dissatisfaction created by the Sturgis bill, passed two years ago, for the purpose of enforcing the prohibitory laws. Cobb's plurality is estimated at between 7,000 and 8,000.

Congressman Charles E. Littlefield, (Rep.) of the Second district was re-elected by a greatly reduced plurality, estimated from 1,000 to 1,500.

Congressman Edwin C. Burleigh of Augusta (Rep.) was re-elected in the Third district by an estimated plurality of 2,000, and Congressman Powers of Houlton (Rep.) in the Fourth district by a plurality estimated at 2,000. The re-election of Congressman A. L. Allen in the First district is claimed.

Coal Production.

Washington, Sept. 11.—According to the report of Edward W. Parker, statistician of the United States geological survey, the production of coal in the United States in 1905 amounted to 392,919,741 short tons, having a value at the mines of \$476,756,963, surpassing in both quantity and value all previous records in the history of the country. Of the total production in 1905, 77,659,850 short tons were Pennsylvania anthracite, with a value at the mines of \$141,879,000. The total production of bituminous coal and lignite was 315,259,491 short tons, valued at \$334,877,963.

Battleship Georgia.

Washington, Sept. 12.—Governor Terrell of Georgia called on Secretary Bonaparte to request that the battleship Georgia, which is about to be turned over to the government at Bath, Me., be put in commission in Georgia waters either at Savannah or Brunswick. No official action has yet been taken by the authorities of Georgia in the matter of presenting a silver service to the new battleship, but it is understood the young lady who will act as sponsor will make a presentation of a piece of silver.

Girl Executed.

St. Petersburg, Sept. 12.—Zenaide Konopliankice, the girl who assassinated General Min, at Peterhof, Aug. 26, and was sentenced by court martial to be hanged Monday night, was taken out of the fortress of St. Peter and St. Paul and placed on a board a ship for the Schlusselburg prison. Her friends hope for a reprieve, but a rumor is in circulation that she was executed at daybreak.

Will Contest Oelrichs' Will.
 New York, Sept. 12.—Mrs. Herman Oelrichs, whose husband's will cutting her off entirely from any share in his estate, was filed for probate in New York, will contest the instrument. Mrs. Oelrichs is on her way to San Francisco to look into the estate.

Building Gave Way.

New York, Sept. 11.—One man was killed and five others seriously injured by the collapse of a new building at Mineola, L. I. Another man is reported buried in the ruins and is probably dead. The men buried in its ruins were Italian workmen.

Gas Tank Exploded.
 Toronto, Sept. 10.—While cleaning out a purifying tank in the Consumers' gas company's premises the gas ignited and an explosion resulted, in which 14 workmen were badly burned. Two or three of them may lose their eyesight.

WOMEN'S NEGLECT SUFFERING THE SURE PENALTY

Health Thus Lost Is Restored by Lydia E. Pinkham's Vegetable Compound.

How many women do you know who are perfectly well and strong? We hear every day the same story over and over again. "I do not feel well; I am so tired all the time!"

More than likely you speak the same words yourself, and no doubt you feel far from well. The cause may be easily traced to some derangement of the female organs which manifests itself in depression of spirits, reluctance to go anywhere or do anything, backache, bearing-down pains, flatulency, nervousness, sleeplessness, or other female weakness.

These symptoms are but warnings that there is danger ahead, and unless heeded a life of suffering or a serious operation is the inevitable result.

The never-failing remedy for all these symptoms is Lydia E. Pinkham's Vegetable Compound.

Miss Kate McDonald of Woodbridge, N. J., writes:

Dear Mrs. Pinkham: "Restored health has meant so much to me that I cannot help from telling about it for the sake of other suffering women."

"For a long time I suffered untold agony with a female trouble and irregularities, which made me a physical wreck, and no one thought I would recover, but Lydia E. Pinkham's Vegetable Compound has entirely cured me, and made me well and strong, and I feel it my duty to tell other suffering women what a splendid medicine it is."

For twenty-five years Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction, and since her decease, been advising sick women free of charge. Her advice is free and always helpful. Address, Lynn, Mass.

The Dodging Period

of a woman's life is the name often given to "change of life." Your menses come at long intervals, and grow scantier until they stop. The change lasts three or four years, and causes much pain and suffering, which can, however, be cured, by taking

WINE OF CARDUI

Woman's Refuge in Distress
 It quickly relieves the pain, nervousness, irritability, miserableness, fainting, dizziness, hot and cold flashes, weakness, tired feeling, etc. Cardui will bring you safely through this "dodging period," and build up your strength for the rest of your life. Try it.
 You can get it at all druggists in \$1.00 bottles.

"EVERYTHING BUT DEATH"
 I suffered, writes Virginia Robson, of Easton, Md., "until I took Cardui, which cured me so quickly it surprised my doctor, who didn't know I was taking it."

Congressional Nomination.
 Knoxville, Tenn., Sept. 13.—Democrats of the first congressional district of Tennessee nominated John H. Caldwell, of Bristol, as candidate for congress. Mr. Caldwell is chief owner of the Bristol Courier and a capitalist.

READ THIS.

Hopkinsville, Ky., June 7th, 1901.
 Dr. E. W. Hall, St. Louis, Mo. Dear Sir: I suffered ten years with severe kidney and bladder troubles, and at times was unable to work. I was advised to try your Texas Wonder, and after using one-fourth of one bottle, I passed a large gravel, and I have never suffered since passing the same, three years ago. I have recommended it to many others, who reported themselves cured. I most heartily recommend it to all sufferers from kidney or bladder diseases.

Sam Dean.

A TEXAS WONDER

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder trouble in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle two months treatment and seldom fails to perfect cure. Dr. E. W. Hall, Sole Manufacturer, P. O. Box 629 St. Louis, Mo., Send for testimonials. Sold by all druggists.

SOUTHWEST The Land of BIG CROPS and PROSPERITY.

Are you making as much off your farm as you ought? No doubt you are making all you can. The trouble is the land costs too much. It takes too much money to buy a big farm, and so you are trying a living on a small farm, or perhaps you are renting one and paying a good share of what you raise, in rent. Wouldn't it be better to go where the price of good land is so little that you can own a big farm—where every acre of the ground is working for you and all you raise is paying you good profits?

There are thousands of acres of fertile land in the Southwest along the line of the Cotton Belt Route that can be bought for from \$3 to \$10 an acre. This land is increasing in value each year.

See the Southwest at Small Cost

A trip to the Southwest would convince you that your best interests lay in settling there. The trip can be made at very little expense. On the first and third Tuesdays of each month you can purchase a round trip ticket to any point in the Southwest on or via the Cotton Belt Route at very low rates. Stopovers will be allowed for you to examine any locality you are interested in.

Write at once for free copies of books describing this wonderful country and for full information about cost of tickets, etc.

L. C. BARRY, T. P. A., Cotton Belt Route, 82 Todd Building, Louisville, Ky.
